- Questions and Discussion

Motivation

- 30th ER conference seems an appropriate time to reflect and look forward
- Significant progress has been made in areas such as requirements modeling, database design, and process modeling
- What are understudied areas in conceptual modeling and what promise do they hold?

Panelists asked to address

- What insights can CM bring to understanding phenomena in new/understudied domains?
- What implications do challenges in such domains have for CM research?
- Can we generate increased interest in CM research and the ER conference?
- Each panelist will explore one area of opportunity
